

Ceramics Reconsidered

Kingston Potters' Guild
October 2–27, 2023 in UNIT 115

Ceramics Reconsidered is a public celebration of the year-long inaugural Kingston Potters' Guild Mentorship Program.

The mentorship program at the Kingston Potters' Guild was a year-long opportunity for a selected group of ceramic artists to transform and revitalize their pottery with the guidance of an experienced mentor. Each mentee was challenged to stretch creatively, finding and pursuing their individual goals in clay.

Show us what inspires you visually, and then figure out how you will express that in ceramics in a way that differs from what you have been doing so well up to now.

It's not about completing something but starting something.
